

Hi, my name is Savannah Rowley, the owner of Tax Savi!

As a realtor, you are officially a small business owner. How exciting!

Becoming a new business owner can be difficult. You should

have several questions like, **what business entity is right for me? Do I need an LLC? How much should I save for taxes? What can I write off?**

It is important to address those important topics up front, before it becomes too late and you end up owing thousands of dollars in taxes that you didn't plan for. As a realtor, understanding these concepts are especially important because your income can fluctuate without warning based on the market.

I know what you're thinking.... Tax and business consulting is expensive! I agree, it is an investment, but one that will pay off. That is why I created the "Start Up Code." It's a self paced course that teaches you everything you need to know about preparing the best foundation for your business at a fraction of the cost of consulting. This course provides you peace of mind knowing you have a sound legal structure in place and that you are educated about the way your business is going to be taxed. I also cover the concept of wealth building and how to do it in a satisfying and sustainable way.

Check out my Start Up Code Checklist of all the things you need to know as a new business owner. This also covers everything I teach in my course.

I have a special place in my heart for realtors, as it was my family's primary source of income while I was growing up. I understand the unique challenges and opportunities realtors face. I want you to be as successful as you can be and part of that is educating yourself on business legalities and taxes. Let me help you become a wealthy "tax savi," business owner.
